INTRODUCING THE MF300T...

The MF300T is a piston-sensed self-venting regulator for gas or liquid applications with 1:1 tracking ratio to reference pressure.

The MF300T offers a **balanced main valve** as standard and features an anti-tamper locking cap as standard with its reference port in an adjustable collar to suit your application. The MF300T's 1/2" and 3/4" designs have been subjected to Oxygen Ignition Tests to EN ISO 7291 standard.
